PROFILE

Test automation engineer with **8+ years** on banking, financial markets, telecom and AI/NLP projects through IT service companies (SourceFuse, TCS), for clients including Rakuten Mobile, Commonwealth Bank of Australia and Refinitiv (LSEG). Five testers report to me, and I have interviewed 25 automation candidates. On Rakuten Mobile's shop reservation system we cut CI build time by **62%** and raised automation output about **2.5x**. In total: **4,500+** automated tests and **480+** critical defects caught before release, across **7+** clients. Completing ISTQB CTAL-TM, CT-AI and CT-ATLaS (Nov 2026); my next step is a QA Lead role in a product team.

WORK EXPERIENCE

05/2022 – present **Senior Tester – Automation**
SourceFuse Technologies (IT services) • Noida, India (remote)

- Client projects in Japan, Australia and India. 5 testers report to me (15-person QA group): PR reviews, quality gates, daily support. Interviewed 25 candidates for automation tester positions.
- Write the test strategy, scope and entry/exit criteria for each project and report quality metrics to client stakeholders.
- Created test plans, requirements and defect traceability matrices (RTM) and PoCs; gave QA sign-off for deployments and supported clients in UAT and production deployments.
- Run knowledge-transfer sessions and test-case reviews so new joiners get up to speed on complex modules.
- Use Claude AI and GitHub Copilot to speed up script writing and locator creation.

10/2018 – 04/2022 **QA Engineer**
Tata Consultancy Services (IT services) • Gandhinagar, India

- Test automation for banking and financial-data clients. Wrote test plans and sprint reports and tracked 70+ defects in JIRA.
- Received 5 company awards in 3 years: Star Team (2019), Star of the Month (2019), Special Initiative (2021), Service & Commitment (2021) and On the Spot Team (2022).

01/2018 – 06/2018 **Intern, Web Developer**
Space Applications Centre (ISRO) • Ahmedabad, India
Built a bank guarantee monitoring web application (HTML, CSS, JavaScript, JSP) for the MISD department's internal network.

CLIENT PROJECTS

08/2026 – present **Rakuten Mobile (Japan) – Shop Reservation System**
SourceFuse • Senior Tester – Automation
Test automation for online reservations, walk-in check-in, the reception terminal and queue management. Moved the suite to Browser Library with parallel runs, which took Jenkins build time from ~2 hours to ~45 minutes. Raised output from ~40 to nearly 200 test cases in two months with Claude AI, and fixed flaky tests so CI stays green. I own test execution, Jenkins build monitoring, failure analysis and execution reports for stakeholders.
Technologies: Robot Framework, Browser Library, Jenkins, Claude AI

03/2026 – 08/2026 **Rakuten Mobile (Japan) – Rakuten Link app**
SourceFuse • Senior Tester – Automation, team lead
Rakuten Mobile's subscriber app: domestic and international calling, messaging and group chats (up to 100 people), payments, rewards and points wallet, account management and an AI assistant. Kotlin automation on Android and iOS in English and Japanese: 40+ tests a week, 400+ in total, run on real devices through AWS Device Farm.
Technologies: Kotlin, Jenkins, AWS Device Farm, GitHub Copilot, Claude AI

04/2025 – 03/2026 **Comviva – NGAGE NeuraTalk AI chatbot builder**
SourceFuse • Senior Tester – Automation
Built a Python and BERT framework from scratch to test LLM and Rasa chatbots: intent recognition, entity extraction, fallback handling and multi-turn context. Also tested bot creation and deployment, the agent portal and bot-to-agent handover. 800+ tests; 50+ critical defects found before release.
Technologies: Python, Robot Framework, BERT (semantic similarity), Rasa, LLM

01/2025 – 03/2025 **Comviva – BlueMarble GenAI platform**
SourceFuse • Senior Tester – Automation
200+ automated GenAI API tests for AI recommendations and response accuracy, plus UI checks from API to front end; 30+ critical defects found.
Technologies: Python, Robot Framework, AWS

08/2024 – 11/2024 **ITOMIXER – Interactive multitrack music web and mobile app**
SourceFuse • Senior Tester – Automation
Analysed requirements and built 1,500+ automated tests (page object model, POM) across web and mobile; sanity, regression, E2E and SIT testing from QA to production.
Technologies: Java, Selenium, Appium, JIRA

05/2022 – 06/2024 **Commonwealth Bank of Australia – CCI PEGA, CWI, CRA and Bankwest squads**
SourceFuse • Senior Tester – Automation
QA contact for three squads. Built a SpecFlow BDD framework for retail, business and premium banking, PEGA CRM and mortgage workflows; API testing and Oracle data checks; 60+ critical defects found. Contributed to the SP193 change (saved about $100K a year in write-offs) and SP22a (saved 10 minutes per case); 5 production changes shipped in 2024.
Technologies: C#, SpecFlow, Postman, Oracle SQL, PEGA

TCS, ~2.5 years **Refinitiv (LSEG) – Financial markets data platform**
TCS • QA Engineer
150+ multi-language and 50+ Salesforce automated tests for a platform used by 40,000+ customers, using data-driven and BDD frameworks. Functional, compatibility, system and integration testing from QA to production; regression and smoke reports for each sprint.
Technologies: Java, Selenium, Cucumber, AEM, Salesforce

TCS, ~1 year **Axis Bank – SIDDHI CRM mobile app**
TCS • QA Engineer, mobile automation lead
Built an Appium framework from scratch; regression time went from 3 days to 5 hours across 170+ Android and iOS scenarios, with 60+ bugs fixed before release. Onboarded the team to the framework.
Technologies: Appium, Java, React Native

EDUCATION

2014 – 2018 **Bachelor of Engineering (4 years), Information Technology**
Parul Institute of Engineering & Technology • affiliated to Gujarat Technological University (GTU)
CGPA 8.37/10, ranked 105 of 2,619 in the branch; 2nd in the college across all semesters. NASSCOM Dewang Mehta IT Award 2017.

2010 – 2014 **Higher Secondary (Science) and Secondary School**
Jawahar Navodaya Vidyalaya, Porbandar • CBSE
HSC 77.6%; SSC CGPA 9.2/10. School captain. 7th rank in the state Maths Talent Search (2009); 95.42 percentile in quantitative reasoning, CBSE Problem Solving Assessment (2013).

CERTIFICATIONS

2026 **ISTQB CTAL-TAE v2.0**, Advanced Level, Test Automation Engineering (92.42%), No. 26-136482 • Verify

2026 **ISTQB CTFL v4.0**, Foundation Level (85%), No. 26-136025 • Verify

2026 **Databricks Certified Generative AI Engineer Associate**, ID 171388162, 100% in 5 of 6 sections • Verify

2025 **New Relic Verified Foundation**, ID 153823984 • Verify

2024 **AWS Certified Cloud Practitioner**, valid to 2027, 90X17HSLYEQ11Y5R • Verify

2024 **LambdaTest Cypress 101**, ID C101-1P5SRF • Verify

In progress **ISTQB CTAL-TM v3.0** (Test Management), **CT-AI v2.0**, **CT-ATLaS** (Agile Test Leadership), due Nov 2026

TECHNICAL SKILLS

Practices	Test strategy and planning, RTM and defect traceability, deployment sign-off, framework design, risk-based testing, CI/CD, defect lifecycle, stakeholder reporting, hiring, mentoring and PR review, Agile/Scrum, SDLC/STLC
Test automation	Selenium (BDD, POM), Playwright (Robot Framework Browser Library), Robot Framework (REST), Appium, SpecFlow, Cucumber, Cypress, Postman • **Performance:** JMeter
Programming	Python, Java, C#, Kotlin, SQL
CI/CD and devices	Jenkins, Git, AWS Device Farm, LambdaTest, BrowserStack
AI testing	BERT semantic analysis, Rasa, LLM response validation, GenAI API testing, Claude AI, GitHub Copilot
Tools and cloud	JIRA, Zephyr, Xray, TestRail, PyCharm, AWS, Databricks, New Relic, Oracle SQL
Platforms	PEGA (CRM/BPM), Salesforce, AEM, React Native

FEEDBACK FROM MANAGERS AND CLIENTS

Manager, 2025 *"Took full responsibility for designing and maintaining automation solutions that significantly improved test coverage, efficiency, and product quality."* Jatin Chauhan, SourceFuse (Tester of the Quarter nomination)

Client, 2025 *"Felt like a natural extension to our existing team, collaborated beyond expectations, helping adopt new technologies."* Comviva

Client, 2024 *"Always on the front foot; reliable, focused, committed. Upfront in calling out concerns and constructively challenging decisions."* Ryan Sharpley, Engineering Manager, Commonwealth Bank of Australia

ADDITIONAL INFORMATION

Languages	English: proficient (C1) • Gujarati and Hindi: native-level (C2)
Recognition	Tester of the Quarter Q4 2025 • Core Value Award 2024 (presented by the CEO) • 15+ commendations, incl. a Comviva client recommendation and CBA manager and product-owner reviews
Work permit	Requires visa sponsorship to work in the EU / Nordic countries • **References:** available on request
